FOTECO REMCO SAATI

Paper Mask Tape for Screens

1. APPLICATION

The white colored masking tape is made from saturated crepe paper and covered by a natural rubber adhesive. It allows application on multitude of different types of surfaces and is developed for masking in the printing industry.

It is adapting perfectly to all types of contours – straight and curved – resisting high temperature cycles up to 60°C.

It prevents solvent-based and water-based screen-printing inks from un-intentionally passing through the fabric. The tape is easy to apply and remove and leaves no adhesive residues after removal.

2. AVAILABLE DIMENSIONS

Product	Item - No.	Width x length
VARIOTAPE Paper Mask	RVTP000003	48 mm x 45 m
VARIOTAPE Paper Mask	RVTP000004	100 mm x 45 m

3. TECHNICAL CHARACTERISTIC

Properties	Values
Total thickness	125 µm
Tensile strength	≥ 25 N/cm
Elongation at break	110%
Adhesion to steel	≥ 2,5 N/cm
Application temperature range	[-10°C ± 45°C]
Maximum operating temperature	60 - 80°C

CARRIER: Saturated crepe paper

ADHESIVE TYPE: Natural rubber

5. STORAGE

For better conservation of properties, the tape should be stored in its packaging, between 20 and 30°C, preserved from direct exposure to sun and moisture.
